North East Trees
Bringing Nature Back

**Community
Health Councils**

Urban Greening in South Los Angeles

Goal & Objectives

Goal:

To mitigate pollution by planting trees.

■ Street Tree Planting

- Plant 500 street trees

■ Residential Tree Giveaways

- Give away 1000 trees to community members within the project boundary to plant on their property

■ Open Space Tree Planting

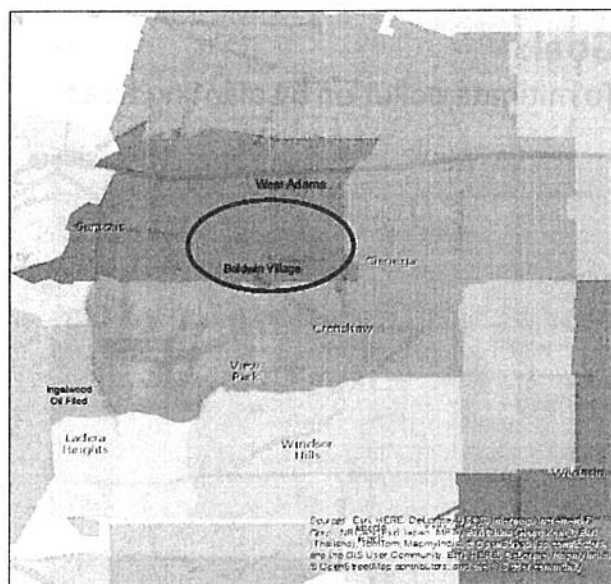

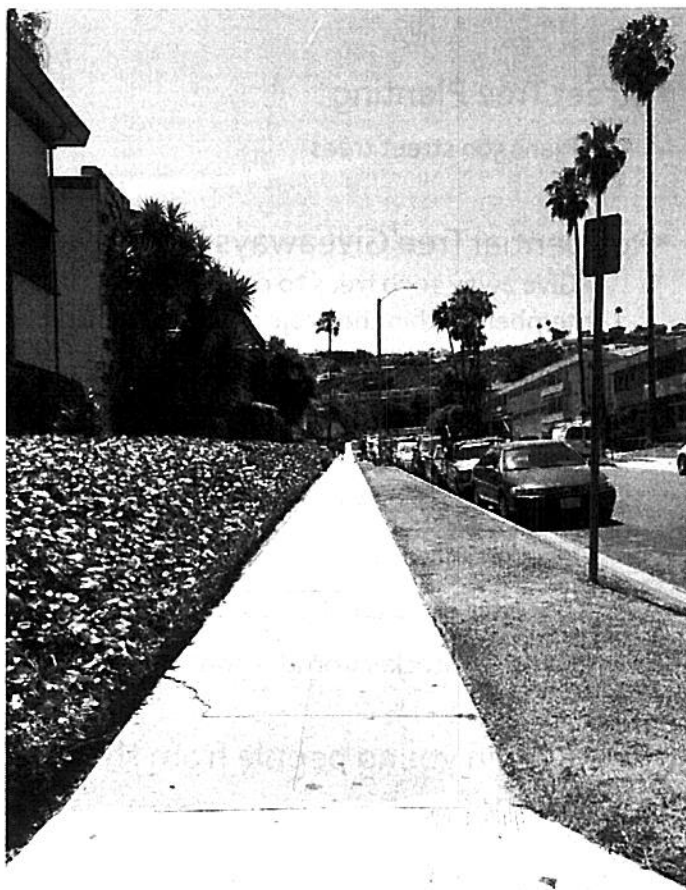

- Plant 2000 large canopy trees throughout the open space areas in Baldwin Hills – Kenneth Hahn State Recreation Area, Overlook, Stocker Corridor Trail, etc.

■ Hire & train young people from the community

■ Tree planting workshops

GET FREE TREES!

CITY PLANTS

North East Trees

City Plants works with the City to offer free trees to LA residents! You can get:

Free street trees in front of your home or business.
We will plant them for you – All you have to do is water them!

Free trees for your yard.
We'll deliver them straight to your door! Just plant them, water them, & watch them grow!

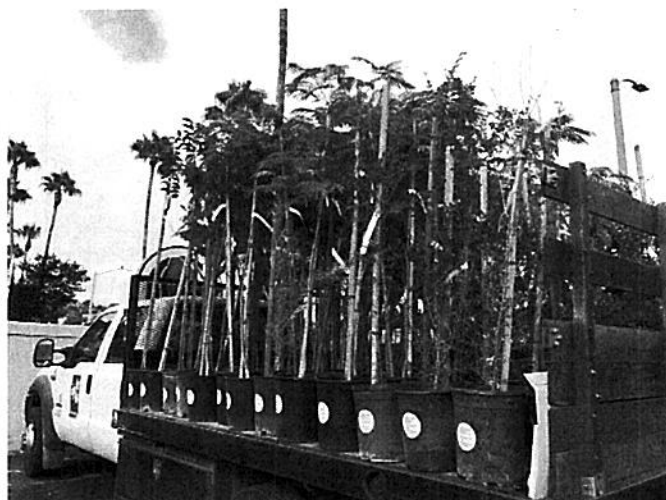

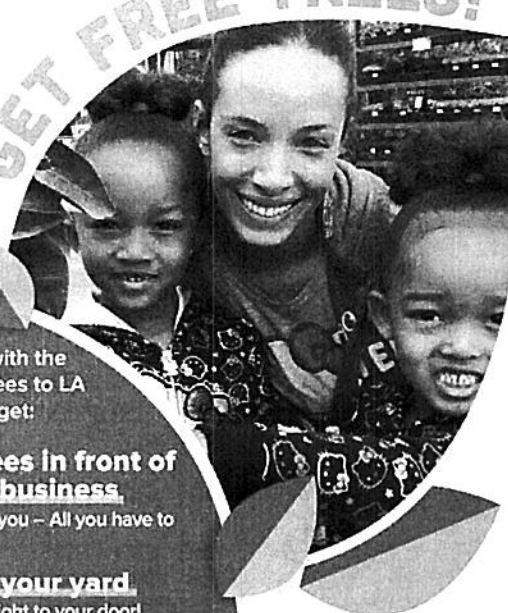

Planting trees can help you save money and energy!

Transform your home, your neighborhood, and your city into a better place to live!
